

# IVO Pre-Patent Technical Dossier — Version 1.3

Version 1.3 introduces hybrid high-authority graphical diagrams representing the IVO operator structure, directional beam mechanics, and AI reasoning architecture. These figures strengthen interpretability and prior-art clarity for technical, academic, and industry-facing contexts.

## Prior Art Declaration

This Version 1.3 document introduces graphical representations and strengthens the structured description of the IVO model. These diagrams and definitions constitute timestamped public prior art and reinforce the originality of the computational and conceptual architecture.
